

## HP INDIGO PRESS 5500

The productive digital solution with offset look and feel, as well as true photo quality

**The HP Indigo press 5500 delivers unmatched quality, reaches higher levels of productivity, and achieves greater profitability—the keys to success in a digital world. Capable of printing over two million colour pages or more than five million monochrome pages per month, the HP Indigo press 5500 is a truly universal production device.**

**Unmatched print quality.** The HP Indigo press 5500 combines the look and feel of traditional offset with genuine photo quality. Digital output has never looked so professional, with features such as:

- Superior HP ElectroInk liquid ink technology
- Wide colour gamut, with up to 7-colour printing
- Robust colour management with HP Professional PANTONE® emulation and ICC profiles
- Special and spot colour capabilities, including photo inks—light cyan and light magenta, HP Indigo Digital Matte, and brand colours
- GRACoL® and Fogra certified for offset proofing
- High definition dot placement technology enables 1219 dpi and zero dot gain for superior line work and micro text printing
- Photo colour tables
- Best-in-class colour accuracy and consistency

**Maximum productivity and versatility.** The HP Indigo press 5500 offers exciting features that help you make your busy workday more productive.

- Supports 68 ppm full colour, 136 ppm in 2-colour, and 272 ppm monochrome in one press, regardless of media type or thickness
- Continuous printing with multi-feeders and stackers, seamless switching between jobs, proofs, and media types

- Adjustment-free, minimum-touch paper handling
- Fast and efficient printing operations allow for a single operator to run two machines simultaneously

**Print profitably.** The HP Indigo press 5500 is a complete solution designed to help you increase margins by offering:

- Extensive automation, to reduce operator involvement
- Support of a wide range of coated and uncoated substrates, including specialty media
- On-press Fast Ink Replacement (OFIR) system, which reduces ink replacement downtime when changing colours on-press
- Extendable workflow environment through HP SmartStream products and partners
- Oil recycling system, which reduces the oil consumption and waste

### **Additional options for the HP Indigo press 5500.**

The versatility of the press has been extended with optional enhancements:

- White ink option kit enables you to use a larger variety of specialised substrates, such as transparent, metallic, and coloured media for a wide range of unique applications.
- Additional paper feed unit, adding three drawers (5400 sheets) enabling a greater range of substrates in the press and reducing reload frequency for long production runs.
- Support for thick substrates up to 460 microns, enabling a greater application range.

**Opening new opportunities for folding carton applications.** By combining the power of our HP SmartStream Labels and Packaging Print Server, Powered by EskoArtwork and the thick substrate kit you can produce high-value folding carton applications in fast turnaround times and quantities that meet your needs.
